

**GENESIS ENGINEERING & REDEVELOPMENT**

December 4, 2020

Mr. Kevin Lin  
Los Angeles Regional Water Quality Control Board  
320 West 4<sup>th</sup> Street, Suite 200  
Los Angeles, California 90015

Subject: Request for Extension  
Vapor Intrusion Response Plan Decision Flow Charts  
Skypark Commercial Properties, Torrance, California (SCP Case No. 1499)

Dear Mr. Lin:

This correspondence will serve to request an extension on submission of the revised Decision Flow Charts that are required as a part of the Vapor Intrusion Response Plan for the Skypark Commercial Properties in Torrance, California ("Site"). The November 20, 2020 letter from the Los Angeles Regional Water Quality Control Board ("RWQCB") provided comments to the Decision Flow Charts and required submission of revised Decision Flow Charts by December 7, 2020.

After reviewing the comments in the November 20, 2020 RWQCB letter, Genesis Engineering & Redevelopment, Inc. sent an email to you on November 25, 2020 requesting a conference call with the RWQCB to discuss our concerns about the additional requirements to the Decision Flow Charts prior to the December 7, 2020 due date. In a phone conversation with you earlier this week, you conveyed to me that the RWQCB will not be able to schedule a conference call prior to the December 7, 2020 due date. Because we have concerns about the required changes to these critical documents, we request an extension on the due date to 2 weeks after the date of the conference call to discuss our concerns.

If you have any questions or require any additional information, please contact me by telephone at (209) 599-2004 or via email at svanderhoven@gercorp.com.

Respectfully submitted,  
**Genesis Engineering & Redevelopment, Inc.**
